- FISMA Compliance Services
- SSAE-16 Type I and II Attestations
- FISCAM Audits
- IT Systems Integration
- Financial and Business Solutions (FABS)
- Information Security Services
- IT Systems Validation for SOX and Regulatory Compliance

Our Solutions include full spectrum of services and products to assist executive, higher management and program offices in executing programs on-cost, on-schedule and on-performance.

Risk Based Approach

Our methodology has been developed to help achieve more secure information systems within the federal government by:

Facilitating more consistent, comparable and repeatable approach for selecting and specifying security controls for information systems. Program is designed in accordance with FIPS 199, FIPS 200, SP 800-53 and other NIST's Special publications. We provide detailed evaluation of the agency's compliance performance and prioritized roadmap of recommendations for implementing security program and compliance reporting improvements.

IT Systems Validation for SOX and Regulatory Compliance:

Sigma Technology Partners LLC has the experience to help you minimize risk and manage your IT compliance burden. Whether faced with up-coming Government, industry or company audits, or looking to protect, optimize or safeguard your IT infrastructure, Sigma Technology Partners LLC can help. Our expertise in IT governance, assurance and regulatory compliance spans multiple industries, software platforms and applications.

Enterprise Risk Management Solutions

Sigma offers a comprehensive Compliance, Risk Management, IT Governance and Assurance solutions that include a purpose-built component for enterprise risk management. The enterprise risk management functionality enables an organization to assess strategic risks and objectives across the enterprise, link strategic objectives with enterprise risks, minimize loss and enhance the decision-making process. Our solutions offer a consistent and sustainable framework for identifying and managing enterprise risks resulting from failed processes, people, systems or external events.
